DATE MAILED: 08/22/2002

Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

(1)

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lawrence Crowe on August 20, 2002.

The application has been amended as follows:

- ✓ Non-elected claims 16-19 and 24-27 have been cancelled.
- ✓ Claim 21 has been cancelled as embodying a substantial duplicate of allowed claim 1.

(2)

Allowable Subject Matter

Claims 1-10, 13-15, 20 and 22-23 have been found to be allowable over the prior art of record.

(3)

The following is an examiner's statement of reasons for allowance:

Methods for the printing of an image on a transfer sheet followed by the transfer of the image from the transfer sheet to a target substrate through the use of an activating solvent, such as taught by U.S. Patent Nos. 6,153,038 to Brooker and 4,770,732 to Steelman, are known in the art. Although Brooker discloses the step of forming an image by applying a first layer of a waterfast (non-water soluble) medium to the uncoated surface of an ink-jet transparency sheet having a coating on one surface thereof adapted to receive hydrophilic solvent-based inks, none of the prior art of record specifically teach or suggest such a method wherein the waterfast (non-water soluble) image forming medium is applied to the coated surface of an ink-jet transparency sheet wherein the coating is adapted to receive hydrophilic solvent-based ink.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 1734

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

(4)

Response to Amendments and Arguments

In response to the amendments and arguments filed July 8, 2002 and the telephonic interview of August 20, 2002 (see Interview Summary, paper No. 7), claims 1-10, 13-15, 20 and 22-23 have been found to be allowable over the prior art of record as set forth and explained in sections (2) and (3), above. This action is in specific response to the amendments to applicant claims 1 and 20 which were amended to disclose that the waterfast (non-water soluble) image forming medium is applied to the coated surface of an ink-jet transparency sheet wherein the coating is adapted to receive hydrophilic solvent-based ink. Though Brooker discloses the step of forming an image by applying a first layer of a waterfast (non-water soluble) medium to the surface of an ink-jet transparency sheet having a coating on one surface thereof adapted to receive hydrophilic solvent-based inks, he specifically teaches away from the instant invention disclosing that the waterfast medium must be applied to the smooth, uncoated backside. The objection and rejection of original claims 11 and 12, set forth in the first office action mailed April 1, 2002, has been rendered moot by the cancellation of those claims.

(5)

Drawings

The application having been allowed, formal drawings are required in response to this Office Action including any changes as required by the Notice of Draftsperson's Patent Drawing Review (Form PTO-948), a copy of which is attached hereto.

The corrected or substitute drawings were received on June 4, 2001. These drawings have been reviewed and are subject to the requirements set forth in the Notice of Draftsperson's Patent Drawing Review.

Color photographs and color drawings are acceptable only for examination purposes unless a petition filed under 37 CFR 1.84(a)(2) is granted permitting their use as acceptable drawings. In the event that applicant wishes to use the drawings currently on file as acceptable drawings, a petition must be filed for acceptance of the color photographs or color drawings as acceptable drawings. Any such petition must be accompanied by the appropriate fee set forth in

Art Unit: 1734

37 CFR 1.17(h), three sets of color drawings or color photographs, as appropriate, and an amendment to the first paragraph of the brief description of the drawings section of the specification which states:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the U.S. Patent and Trademark Office upon request and payment of the necessary fee.

Color photographs will be accepted if the conditions for accepting color drawings have been satisfied. The Applicant's petition under 37 CFR § 1.184, filed 06/04/2001, has been received and will be considered. In the event that the petition is granted, the applicant is reminded that the language set out above must be inserted into the specification.
